

## GAME2341 – Assignment 08

### General Points

- Assignment 08 can be completed using the following:
  - [Blackboard | Resources | Week 8 | Videos/PPTs](#)
    - *Memory*

### Requirements

1. Follow the steps in the *Memory* video listed above and include the functionality in the project as outlined and described.
2. Include a Start Scene and an End Scene. Use column-major order to build your card grid. Not the row-major order used in the video.
3. Include at least two additional *enhancements* of your choosing. Identify the enhancements with your statement at the end of MemoryCard.cs.
4. Complete the game using asset(s) that you download/create.
5. Include the four C# files supplied in the video and any additional used.
6. Take screenshots of your game successfully running and include the screenshots with your Bb submission.
7. Submit the files individually to Bb.
8. [Include comments at the end of the MemoryCard.cs file with a statement explaining your experiences with Assignment 08. Make this authentic \(minimum of 2-3 sentences\). Also, identify your enhancements.](#)

Note: The requirements above are the minimum. You are welcome and encouraged to include additional functionality. Have fun!

---

**TEST – TEST – TEST** your application to ensure the specific program requirements are met.

- Not meeting all requirements = 0 points for the assignment.
